

WANTED: Super-Awesome Occupational Therapist!

Work for a growing private practice!

Delta Physical Therapy and Sports Medicine, PC is looking for the next superstar Occupational Therapist, someone who is super-awesome, just loves people, and loves treating patients!

Is that you? Then keep reading! If not, that's cool too, nice meeting you :)

Who the Heck are we?

We are basically the coolest, most fun place for rehab on the planet when it comes to treating and helping patients. We offer quality care, we follow-up with patients and we love what we do. We help people live happier, pain free lives.

How cool is that? We do what we love and help the community in the process. How amazing! We are fantastic at what we do, and it shows - just ask our patients!

This about this. You would not want the guy who makes you a delicious pizza to be sitting in the back room doing your taxes would you? Of course not, well we basically don't want therapists being all stiff lipped and formal with patients because that's not who we are and that's not what we stand for. So, we said heck, let's have fun and make people smile.

Enough about us, what about you?

If you are a licensed occupational therapist who likes to solve problems and have a genuine love for seeing people happy without having to be brain washed to do it, then you are what we're looking for.

If you are a recent graduate or get satisfaction in knowing that you have helped someone have a better day by being patient, professional, and delivering KNOCKOUT care as a occupational therapist, then you are welcome to come on board! Please keep reading if you are the type of person that fits our needs. If not, then sorry :(

You're super nice and people almost find you too caring. (Too much of anything is not good, but we'd rather that you are too caring than the opposite, we know that sounds a little silly but that's how we roll.)

You are someone who thinks about the patient first and not what is convenient for you. You have no problem being the 'calm one' when things around you are going sideways, because you are the one, we can all RELY ON.

Ideally, we'd like you to have at least two years' worth of experience as an occupational therapist; if that's not the case that's cool too, but ideally a person with some background in the field is what we are looking for.

So why our clinic?

You will have a change to make a difference in the lives of patients in our communities.

You'll work with a great staff every day. Every single member of our team is like family. It won't even feel like work to you anymore! You are never alone in this company because we are one big happy family. Anytime you have a question there is always someone who is available to help you. You won't feel like the new kid on the block, because we love working together and helping each other. Our main focus is our patients; if they are happy, I'm happy and when I'm happy I do everything in my power to make you happy!

We are invested in you. Depending on your credentials and what you bring to the table, we will invest in your education and your clinical improvement skills. We put people before profits; which is why you'll love working with us, not for us.

So, are you interested? Cool. Come join us. E-mail us at deltafillmorept@gmail.com with the subject line "I'm that one in a million OT". In the body of the e-mail, tell me about the last time you made a patient smile.

Location: Delta and Fillmore, Utah

Compensation:

We believe in competitive compensation and will base this on your experience.

Please, no phone calls about this job!
